STUDENT PETITIONS

Academic regulations are established by the University to maintain and enforce academic standards and are adhered to rigorously. If special and unique circumstances occur, any individual student has the right to petition to waive a regulation. The University similarly has the right to disapprove any petition on the grounds that the circumstances are not compelling enough to warrant an exception to the established regulation. Any student petition requesting retroactive action must be submitted within one academic calendar year.

Procedures for Student Petitions

To petition for a waiver of an academic regulation, the student must submit a written statement and any necessary supporting documentation to the administrative advisor in the office of the dean of the college or school that houses the student’s major. If the student is Undecided, the petition should be filed through the College of Arts and Sciences.
